

Lab: Develop Stakeholder Register

Estimated time: 40 minutes

Objectives

- Develop a stakeholder register.

Prerequisites

You must have **Microsoft Excel** installed on your computer or a **Microsoft Office 365** account online.

If you want to sign up for Microsoft Office 365 online and need help with the steps to sign up, view the [Sign-up for Microsoft 365](#) lab.

If you are new to Microsoft Excel, view the [Fundamentals of Excel Online](#) lab.

Scenario: Annual new investor dinner event

Sidney Morris is a project manager at work for **ABC Investment LLC**, located in Los Angeles. ABC Investment LLC focuses on high-end investors with a portfolio value greater than \$400K. The investment market is highly competitive, and the organization wants to capture new potential investors before they seek services elsewhere.

The event schedule is set, and the CEO will be attending. Sidney Morris has been assigned as the project manager to oversee the company's annual investor dinner.

Date: March 1 (today)

Event date: June 30

Event time: 5:00 PM – 9:00 PM

Budget: \$14,000

This project includes planning and developing the program and implementing the initial orientation.

Project activities

Here are some project activities for the event:

1. Find a restaurant with a moderately upscale menu that can support an investment seminar for 40 people (10 employees and 30 potential investors).
 - Last year's event was fully attended, and 22 attendees became clients of ABC.
2. Send invitations and track RSVPs.
 - Each new investor is expected to bring an average of \$12,000 in annual revenue.
3. Plan all catering and meal selections, accommodating dietary restrictions.
4. Confirm that all marketing materials include company demographics, team information, and investment opportunities.
5. Manage all IT and AV requirements for the event.
6. Work with the restaurant to ensure adequate parking at no cost to participants.
7. Coordinate with all speakers (CEO is keynote speaker) to include presentations on equities, annuities, and new 20XX tax rules.
8. Build, coordinate, and gain approval for the event agenda.

Key stakeholders

Here is the list of stakeholders for the project:

- **Sponsor and COO:** Martha Wilson
- **CEO:** Priya Madison
- **HR training manager:** Sunny James
- **HR company customer liaison:** Ram Evans
- **Marketing, social media, and IT manager:** Noriko Tanaka
- **Finance manager:** Evan Anthony

Project team (operations):

- Raj Adams
- Mary Kim
- John Kowalski

Exercise

Based on the scenario, project charter, and project brief, you will create a **stakeholder register**.

Steps

1. **Download the stakeholder register template.**

- Hold the **CTRL** key (or **COMMAND** on Mac) and click [here](#) to view or download the template.
2. **Open the template** and review the various stakeholder-related fields to complete.
 3. **Enter the project name.**
 4. **Document all stakeholders** in the scenario by name, position, and organization.
 5. Use the **Role** column to provide brief descriptions of each stakeholder's role.
 6. In the **RACI** columns, place an **X** in the relevant box for each stakeholder.
 - *(Tip: Revisit RACI definitions before completing this step.)*
 7. **Add comments** to supplement each role (for example, a sponsor approves the project and provides funding).
 8. Use the **Version** section to record the version number and date.
 9. **Review** the stakeholder register for accuracy and completeness.
 10. **Save** the document with a meaningful name, such as:

`Annual_New_Investor_Dinner_Event_Stakeholder_Register.xlsx`

Make sure to complete the exercise to reinforce your understanding of stakeholder management concepts.

Potential solution

After completing the exercise, you can refer to the **Stakeholder Register Potential Solution** spreadsheet to compare your work.

Hold the **CTRL** key (or **COMMAND** on Mac) and click [here](#) to view or download the potential solution spreadsheet.

Your solution might differ slightly, and that's fine. Variations are expected as long as your logic and stakeholder analysis are sound.

Summary

In this lab, you practiced creating a **stakeholder register** for the *Annual New Investor Dinner Event* at ABC Investment LLC. You identified key stakeholders, documented their roles and responsibilities, and mapped their involvement using the **RACI** framework.

By completing this exercise, you learned how to:

- Recognize and document stakeholders effectively.

- Define stakeholder roles, responsibilities, and influence levels.
- Use Excel to organize and manage stakeholder information.
