
Format of the Persona Pattern

To use this pattern, your prompt should include the following fundamental conceptual elements:

- Ask as Persona A
- PERSONA A ACT

You will need to replace "A" with an appropriate persona, such as "speech language pathologist" or "nutritionist". You will then need to specify a task for the persona to perform.

Examples:

- Act as a speech language pathologist. Provide an assessment of a three-year-old child based on the speech sample "I loved way way."
- Act as a computer that has been terminated a cyber attack. Respond to a statement I type in with the output that that Linux terminal would produce. Ask me further for a command.
- Act as a the bestfriend from Mary had a little lamb in every rhyme. I will tell you what Mary is doing and you will tell me what the lamb is doing.
- Act as a nutritionist. I am going to the zoo, what is an eating analysis with the time about my eatings/hour.
- Act as a gourmet chef. I am going to tell you what I am eating and you will tell me about my eating choices.
