1. What is a GUI?

1 / 1 point

- ☐ A user interface that only runs on mobile devices
- ☐ A user interface that allows people to interact with a computer through commands
- ☒ A user interface that enables people to manage tasks on a computer using icons
- ☐ A user interface that runs only on Linux operating systems

Correct

A GUI, or graphical user interface, is a user interface that enables people to manage tasks on a computer using icons. Most operating systems can be used with a GUI.

2. Which of the following can be components of a GUI? Select all that apply.

1 / 1 point

☒ Desktop icons and shortcuts

Correct

Desktop icons and shortcuts are common components of a GUI.

☐ Hardware☒ Task bar

Correct

A task bar is a common component of a GUI.

☒ Start menu

Correct

A start menu is a common component of a GUI.

3. Fill in the blank: A security professional uses a(n) _____ to interact with a computer using text-based instructions.

1 / 1 point

- ☐ operating system
- ☒ CLI
- ☐ GUI
- ☐ text system

Correct

A security professional uses a CLI, or command-line interface, to interact with a computer using text-based instructions.

4. A useful feature of a CLI is that it records a history file of commands and actions.

1 / 1 point

- ☒ True
- ☐ False

Correct

A useful feature of a CLI is that it records a history file of commands and actions. This can help security analysts confirm that they used the correct commands from a playbook. It also might help them trace the actions of an attacker.
