Complete activities with Google AI Pro at no cost

0:05 / 2:20 1x

In this program, you'll do more than just learn about AI. You'll actually build with it. You'll be taught by a team of Google AI experts and practitioners who use these tools everyday. They'll serve as your guides as you explore different ways to apply AI to your work.

But before you can build like an AI professional, you'll need professional-grade tools.

Get 3 months of Google AI Pro at no cost

To help you get the most out of the program, we're providing a complimentary three month trial subscription to Google AI Pro. While optional and not required to complete your activities, or earn your certificate, it gives you higher access to a suite of our most capable AI models and features.

How to access the extended trial:

1. Proceed to the next item
2. Select "I agree to use this app responsibly"
3. Click on the "Launch App" button
4. A new browser window will open and a unique link will populate
5. Click on your unique link (do not share this link with others, it is assigned to you only)
6. Click on start trial
7. Make sure you are signed into Gemini with your Google account to complete your activities with Google AI Pro

Tips and reminders:

- **Eligibility requirements:** The trial is only available in countries where Google AI Pro is offered, can only be redeemed once, and has an age requirement.
- **Google account requirement:** The promotional code is designed for personal Google Accounts. If you are currently signed into a Google Workspace account, please switch to your personal account to redeem the offer.
- **Using AI at work:** Always remember to follow your organization's AI guidance when using these tools for work related tasks.
- **Using AI at school:** Before using Google AI Pro or other generative AI tools to complete your labs, check your institution's AI policy and ensure your use of AI aligns with your school's data privacy and compliance guidelines (e.g., FERPA). Do not input institutional data or private records into AI tools unless they are part of your university's approved data ecosystem.

Ready to get started? Proceed to the next item.

Note: *While a Google AI Pro subscription is not strictly required to complete the program, it is highly recommended to enhance your learning experience and unlock the full potential of the hands-on activities. See all* terms and conditions.
