Get started on the next course

0:50 / 2:22 1x

Congratulations on completing AI for App Building! You are one step closer to earning the AI credential that powers your career.

Become an AI professional

An AI professional moves beyond using AI as a simple task-completer to embracing it as a professional collaborator. By completing all the courses in this learning program, you will achieve AI fluency and earn the Google AI Professional Certificate.

Take the next step in your learning journey

Each course in this learning program is designed to fit your unique career goals. Enroll in another course to continue building your portfolio of AI-enhanced projects:

- **AI Fundamentals.** Learn essential AI concepts and practice prompting effectively.
- **AI for Brainstorming and Planning.** Use AI to brainstorm concepts, build detailed timelines, and organize a clear plan for any goal.
- **AI for Research and Insights.** Use AI as your research partner, leveraging Deep Research and Gemini Notebook to gain insights, generate summaries, and pressure test ideas for informed decision-making.
- **AI for Writing and Communicating.** Turn rough notes into clear messages, easily adapt them for different stakeholders, and practice for presentations by anticipating questions and concerns.
- **AI for Content Creation.** Use AI as your creative partner to generate high-quality images, video, and presentations.
- **AI for Data Analysis.** Transform unstructured data into clear insights, master skills to analyze data, and create compelling visualizations and formulas with Gemini in Google Sheets.
- **AI for App Building**. Master vibe coding and build your own custom app. Tackle the most tedious tasks, all without writing a single line of code.
- **AI for App Deployment**. Take your vibe coding skills to the next level and adopt a builder mindset. You'll learn how to plan, prototype, test and debug your app before deploying for others to use.
  - AI for App Deployment was added to the Google AI Professional Certificate curriculum on August 11th, 2026. Learners who enrolled prior to this date received an email and platform notification containing a link to upgrade their program to include the new course. For learners enrolled on or after August 11th, 2026, this course is automatically included in their certificate progression.

Keep up the great work!
