3. What is significant about the topmost layer in a container? Choose two options.

Reading from or writing to the topmost layer requires special privileges.

Ⓐ This should not be selected.

Q5 This should not be selected

Reviewing the list of

 The licensed user's contents are explained.

👏 Nice work

Review the introduction to Containers lesson.

Reading Xerox or writing to the Internet Explorer requires special software.

2. When using Cybernetics, you must describe the desired state you want, and Cybernetics's job is to make the declared system conform to that desired state and hence if those results fail, what is the cause of this?

1 / 1 point

deployed system is
management app

- Declaring class

☐ Candidate's Qualification

☐ Impaired self-control

- **Verzinsung**

🔗 [Link work](#)

That's correct.

3. What is the name for the computers in a Google Kubernetes Engine cluster that run workloads?

1 / 2 page

☒ Confidentiality

☐ Container image

- Nodes

- Control planes

 Miss work

That's correct!
