If the Gemini app fails to load, navigate to the URL, log in your browser and manually enter <https://openai.com>.

Build with AI: Meeting summary

To use the features covered in this lab, sign into Gemini using your Google Account.

As you follow the video instructions in this lab, customize the prompts below to fit your own work.

Feel free to pause the video as needed.

The skills you learn in this lab will help you have better, more focused meetings while increasing alignment and productivity to help you and your team get more done.

Lab tasks:**Step 1: Generate an action item report from a transcript.**

Click the "New chat" button on the left side menu to start a new chat with Gemini. Then, paste the prompt below and attach a meeting transcript. Replace the text in [brackets] with your own details. If you don't have your own transcript, include the [sample transcript](#).

Acting as [a role that would excel at the task you want to accomplish, e.g. A senior project manager], generate a report based on the attached transcript. The report must have the following sections: [description of the sections you want in the report].

Step 2: Evaluate the report

In the same chat with Gemini, paste the prompt below and replace the text in [brackets] with your own details.

Evaluate the report using these criteria:

- [First criteria, e.g. Brevity]
- [Second criteria, e.g. Clear action items]
- [Third criteria, e.g. Clarity]

Next steps:

The next time you have a meeting, try applying this process to note taking and creating an action plan. Adjust the prompts and steps to what works best for you and your team.

When you are satisfied with your outputs from this lab, you can close this page and return to the main screen of this cert.
