

Module 1

Week 1: AWS Overview and Security

Module 2

Week 2: Compute & Networking

Module 3

Week 3: Storage & Databases on AWS

Module 4

Week 4: Monitoring & Optimization

Introduction to Week 3

Video • 1 min

Storage Types on AWS

Video • 2 min

Reading 3.1: Storage Types on AWS

Reading • 10 min

Amazon EC2 Instance Storage and Amazon Elastic Block Store

Video • 4 min

Reading 3.2: Amazon EC2 Instance Storage and Amazon Elastic Block Store

Reading • 15 min

Object Storage with Amazon S3

Video • 9 min

Reading 3.3: Object Storage with Amazon S3

Reading • 25 min

Choose the Right Storage Service

Video • 6 min

Reading 3.4: Choose the Right Storage Service

Reading • 10 min

Selecting the Right AWS Storage Service

Dialogue • 15 min

Demo Creating an Amazon S3 Bucket

Video • 9 min

Explore Databases on AWS

Video • 2 min

Reading 3.5: Explore Databases on AWS

Reading • 10 min

Amazon Relational Database Service

Video • 4 min

Reading 3.6: Amazon Relational Database Service

Reading • 30 min

Purpose Built Databases on AWS

Video • 4 min

Introduction to Amazon DynamoDB

Video • 4 min

Reading 3.8: Introduction to Amazon DynamoDB

Reading • 10 min

Reading 3.9: Choose the Right AWS Database Service

Reading • 5 min

Database Architecture Decisions

Dialogue • 15 min

Introduction to Exercise 3

Video • 46 sec

Lab 3: Configuring a Web Application

Graded App Item • 1h

Demo Creating an Amazon DynamoDB Table

Video • 10 min

Week 3 Quiz

Graded Assignment • Grade: 100%

Introduction to Week 4

Video • 52 sec

Monitoring on AWS

Video • 3 min

Reading 4.1: Monitoring on AWS

Reading • 10 min

Introduction to Amazon CloudWatch

Video • 5 min

Reading 4.2: Introduction to Amazon CloudWatch

Reading • 15 min

Optimizing Solutions on AWS

Video • 3 min

Reading 4.3: Optimizing Solutions on AWS

Reading • 10 min

Amazon EC2 Auto Scaling

Video • 9 min

Route Traffic with Amazon Elastic Load Balancing

Video • 7 min

Reading 4.4: Route Traffic with Amazon Elastic Load Balancing

Reading • 20 min

Reading 4.5: Amazon EC2 Auto Scaling

Reading • 20 min

Introduction to Lab 4

Video • 41 sec

Lab 4: Configure High Availability for Your Application

Graded App Item • 1h

Demo Making Employee Directory Application

Video • 24 min

Week 4 Quiz

Graded Assignment • 30 min

Redesigning the Employee Directory

Video • 7 min

Self-Graded Activity: Capstone Project

Practice Assignment • 1h

Introduction to Amazon Bedrock

Video • 9 min

Introduction to Amazon Q

Video • 7 min

Amazon Q Developer Basics

Video • 6 min

Amazon Q Developer Demonstration

Video • 11 min

Amazon Q Developer Security Scanning

Video • 5 min

End of Course Assessment

Graded Assignment • 30 min

Post-Course Survey

Reading • 2 min

Post-Course Survey

Ungraded Plugin • 15 min

Reading 4.4: Route Traffic with Amazon Elastic Load Balancing

What's a Load Balancer?

Health Checks

ELB Components

Application Load Balancer

Network Load Balancer

Resources
