

Final Project Template: Request Defective Part Replacement

Question 1

Process Table: Defective Part Replacement (4 points)

Fill in the table below by reviewing the defective part replacement workflow. Ensure each process step is accurately represented with its corresponding symbol and dependencies. This will help you understand the sequence of actions and decision points within the process.

Process Step #	Process Step	Process Symbol	Dependencies

Question 3

Reflection (2 points)

Use the space below to reflect on the process mapping and narrative exercise. Provide a short reflection of your learnings from this exercise (60 to 100 words).
